Re: MURKIN
CR

Specimens received 5/8/68

K269 Three samples of laundry tape appearing on left portion of white handkerchief, obtained from Paw Paw Laundry, Paw Paw, Michigan

K270 Three samples of laundry tapes appearing on right portion of white handkerchief, obtained from Paw Paw Laundry, Paw Paw, Michigan

Result of examination:

It was concluded that the laundry tapes appearing on Q97 and Q99 were not prepared with the K269 machine while differences were noted between the tapes produced by the K270 machine and the laundry tapes on Q97 and Q99. These known specimens are not adequate for a comparison with the "02B-6" markings which appear on the tapes which were attached to Q69 and Q70.

Specimens K269 and K270 have been retained.
